### Summary

I'm seeking my first job opportunity as a UX UI designer. I have knowledge in digital accessibility, CRO, mobile interface, research methodologies, desktop interface, survey, usability testing, prototyping, journey mapping, interaction design, wireframe and more. I have a background in the healthcare field where I developed important soft skills for 7 years such as: communication, collaboration, proactivity, problem solving and time management.

### Volunteer work

- **NGO Conexao Solidaria (real project)** / January 2022 - May 2022

I worked as an end-to-end UX UI designer creating a website design. I used in this project desk research, user journey, heuristic analysis, digital accessibility analysis, survey, flowchart, wireframes, usability testing and prototyping.

### Projects

- **App Floricultura (case study)** / November 2021 - January 2022

Creation of an e-commerce application for floriculture. I worked as a UX UI designer from the project's conception to the delivery of the final design. I used desk research, competitor analysis, survey, persona, flowchart, wireframes, usability testing and prototyping.

### Skills

- **UX Design:** Research, Persona, User Journey Map, Information Architecture, Flowchart, Survey, User Testing, Competitor Analysis, Digital Accessibility.
- **UI Design:** Wireframe, Interface Design Web And Mobile, Prototype, Heuristic Analysis.
- **Tools:** Figma, MarvelApp, Invision, Maze, Miro, Jira, Hotjar.
