Summary

I'm seeking my first job opportunity as a UX UI designer. I've been working on projects about digital accessibility, CRO and mobile interface. I have knowledge in research methodologies, mobile interface, desktop interface, survey, usability testing, prototyping, journey mapping, interaction design, wireframe and more. I have a background in the healthcare field where I developed communication, collaboration, proactivity and problem solving skills.

Projects

IT Support Company / June 2022 - present

Zaks IT é uma empresa de suporte de TI. O objetivo é o redesign do website para aquisição de novos clientes. Atuo como UX Design, trabalhando com conceitos de conversion rate optimization (CRO).

App Floricultura (case study) / November 2021 - January 2022

Creation of an e-commerce application for floriculture. I worked as a UX UI designer from the project's conception to the delivery of the final design. I worked with desk research, competitor analysis, survey, persona, flowchart, wireframes, usability testing and prototyping.

Volunteer work

NGO Conexão Solidária / January 2022 - May 2022

I worked as a UX UI designer from start to finish performing the website redesign, using desk research, user journey, heuristic analysis, digital accessibility analysis, survey, flowchart, wireframes, usability testing and prototyping.
