Projects

Support an NGO (social project)

As an UX designer I created a solutional proposal for an NGO which focused on digital accessibility.

- I designed an accessible (readable, user flow, accessible tools and more), collaborative and intuitive platform.

Experience

Physical Educator / Personal Trainer - 2014 to 2021

I worked with my clients, understanding their problems, creating solutions and solving problems, prioritizing which actions would be taken considering the result desired by the client.

During 7 years working in this field I developed some skills such as leadership, communication, expectation management and collaboration.
